

Municipal Class Environmental Assessment
Zone 4 Water Storage and Pumping Facilities to service north
Whitby and north Oshawa
Notice of Study Commencement

Works Department

October 10, 2018

Public Notice

The Regional Municipality of Durham (Durham Region) provides water treatment and the distribution of drinking water to residents using the municipal water supply.

Population forecasts to the year 2031 indicate that significant growth will occur in the north Whitby and north Oshawa areas, which are within Durham Region’s Zone 4 and Zone 5 water pressure districts.

The Region has initiated a study to determine the preferred long-term solution for providing water storage and pumping facilities to service the Zone 4 and Zone 5 water pressure districts in Whitby and Oshawa to 2031 and beyond.

The study will follow the Schedule ‘B’ Municipal Class Environmental Assessment (Class EA) process as set out by the Municipal Engineers’ Association.

There will be public consultations regarding the study and information on the consultations will be released as the study progresses.
