

# Bowmanville Avenue (Regional Road 57) and Regional Road 3/Concession Road 8 in the Municipality of Clarington

## Notice of Road Closure

---

**Works Department**

**August 24, 2023**

**Public Notice 5**

---

The Regional Municipality of Durham construction for a roundabout at the Bowmanville Avenue (Regional Road 57) and Regional Road 3/Concession Road 8 intersection, in the Municipality of Clarington is progressing well. The limits of the work include Bowmanville Avenue (Regional Road 57) from 300 metres north to 270 metres south of Regional Road 3/Concession Road 8 and on Regional Road 3/Concession Road 8 from 300 metres west to 200 metres east of Bowmanville Avenue (Regional Road 57).

### **Construction Schedule**

The Region's contractor, **Hard-Co Construction Ltd.**, anticipates completing the work by November 2023.

### **Intersection Control**

The existing traffic signals were decommissioned at the beginning of construction and the intersection will operate as an all-way stop control for the duration of construction.

### **Road Closure and Detours**

Bowmanville Avenue (Regional Road 57) will be closed at Regional Road 3 to 270 metres south beginning September 11 for approximately four weeks until early October 2023. Unfavorable weather conditions and work progress may influence the work schedule.

Traffic will be detoured on Regional Road 3, Enfield Road (Regional Road 34), and Taunton Road (Regional Road 4). Access for local traffic and emergency vehicles will be maintained through the detour routes.

Immediately following the road closure of Bowmanville Avenue (Regional Road 57) south of Regional Road 3, the project will transition into a full closure of the intersection of Bowmanville Avenue and Regional Road 3/Concession Road 8 for approximately two weeks to complete the final staging works and base asphalt paving of the roundabout. Traffic will be advised to use alternative routes.

Further advance public notice will be provided to detail dates and intersection closure.

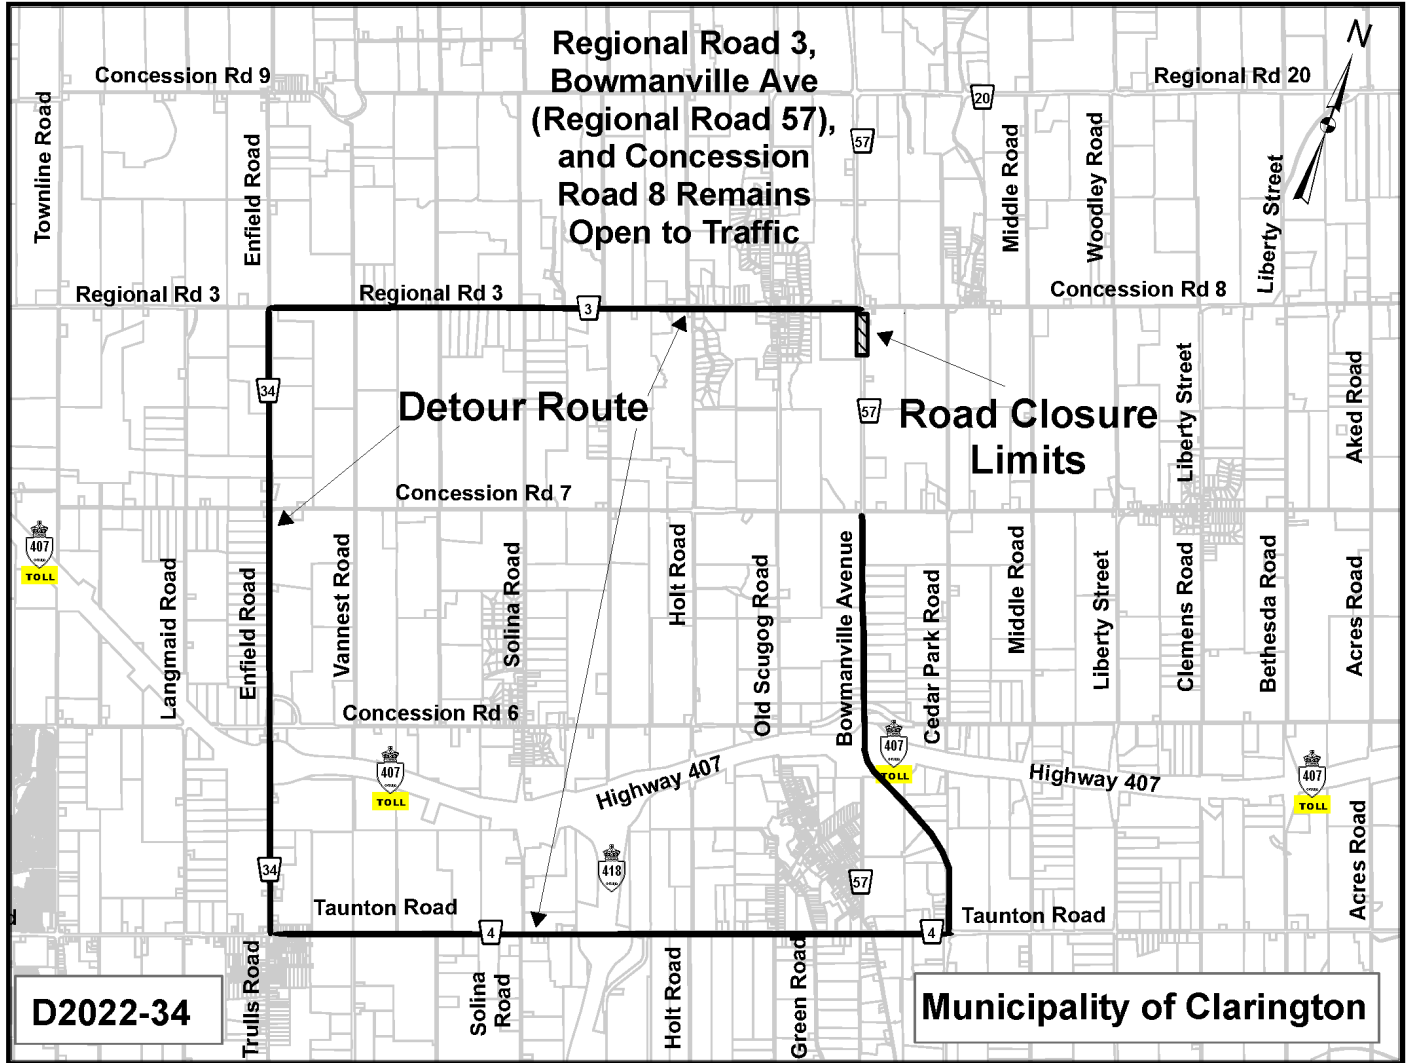

Municipal construction projects include the use of equipment that may cause noticeable noise and vibration for nearby residents and businesses. The Region realizes that the construction work will be disruptive and will make every effort to complete the work as quickly and efficiently as possible.
