

Commenting on the Phosphorus Reduction Action Plan Study:

Durham and York Regions release results of study on strategies to reduce phosphorus from the Duffin Creek:

The Regional Municipality of Durham and The Regional Municipality of York have completed a study requested by the Ministry of the Environment and Climate Change on strategies to further improve phosphorous discharges from the Duffin Creek Water Pollution Control Plant. The public have 45 days to provide comments on recommendations of the PRAP Study to the Ministry. Comments must be received by Friday, February 23, 2018 and can be submitted at the following address:

Ms. Kathleen O'Neill, Director, Environmental Assessment and Permissions Branch
Ministry of the Environment and Climate Change
