

Sewer, Watermain and Road Reconstruction on Baseline Road and Trulls Road, Municipality of Clarington

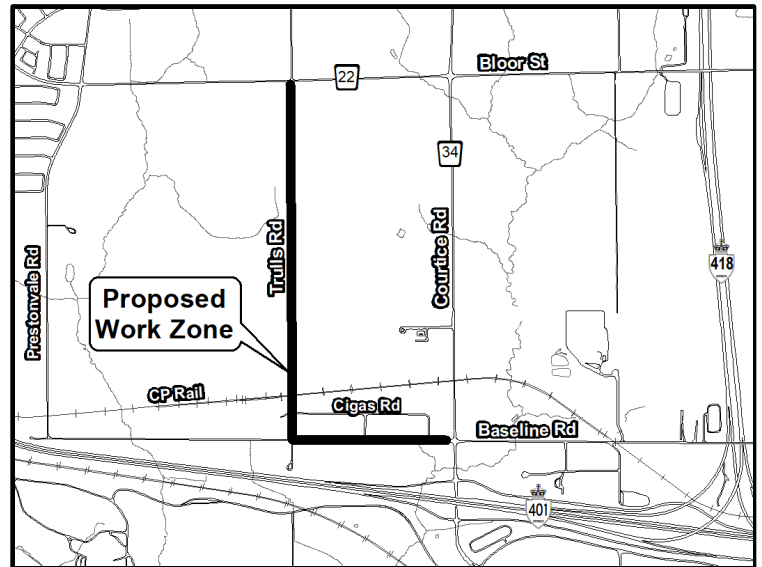

Advanced Notice of Proposed Construction

Works Department

November 18, 2021

Public Notice

The Regional Municipality of Durham will be installing a new watermain and a new large trunk sanitary sewer in Courtice within the Municipality of Clarington along Baseline Road from Courtice Road to Trulls Road and along Trulls Road from Baseline Road to Bloor Street. The Municipality of Clarington has partnered with the Region and will be reconstructing and partially urbanizing Baseline Road from Courtice Road to Trulls Road. The project is tentatively scheduled to begin construction in winter 2022 and is expected to be completed in 2023.

To accommodate construction, Baseline Road and Trulls Road will be closed to all but local traffic within the above-noted limits, including those looking to access local businesses. Drivers should expect delays as crews safely manage traffic movements and construction activities. Additional notification will be issued prior to construction to confirm start date and contact information for Regional staff. The purpose of this advanced notice is to:

- Advise that construction-related impacts are expected, but businesses will remain open and accessible.
- Inform property owners and residents of the road reconstruction work being proposed by the Municipality of Clarington.

The Municipality of Clarington's partial urbanization of Baseline Road includes dedicated in-road bicycle lanes, curb & gutter, boulevard grading, sidewalk, streetlighting, storm sewer installation and area drainage improvements. Additional information on Clarington's planned road reconstruction work is available at clarington.net/BaselineUrbanization. Durham Region offers an overview of what businesses can expect during construction, and some tips on how to minimize the impact on your business at durham.ca/OpenForBusiness. Your patience and understanding is greatly appreciated as this contract is implemented.
